EXPERIENCE

GeekHive, Warwick, NY— *Associate Developer*

JANUARY 2019 - PRESENT

Developing technological solutions to help digital agencies execute marketing technology strategies. Currently utilizing content management systems such as Wordpress and Drupal 8.

RIT CS Department, Rochester, NY— *Grader*

AUGUST 2016 - DECEMBER 2017

Worked as a homework grader for Computer Science I and II. All homeworks were submitted in Python 3 and Java 8, respectively.

EDUCATION

Rochester Institute of Technology, Rochester, NY—

BS in Computer Science

Expected May 2020

Majoring in Computer Science, Minoring in Mobile Development
GPA: 3.90

PROJECTS

HealthNet — *Development Coordinator*

Worked in a team to design, build, and deploy a health care web application that follows Django's MTV design pattern. Front-end development is handled with HTML5/CSS3 and Django's Template Language for dynamic web page handling. SQLite3 and Python handled information processing and storing.

Grader Application— *Solo Developer*

Developed a grading application to record and export student scores and grade breakdowns and to manage grades for different class sections. Implemented with CodeIgniter, PHP, MySQL (MariaDB) and traditional front-end web technologies.

LANGUAGES

PHP

HTML 5 / CSS 3

Sass & LESS

JavaScript

jQuery

MySQL
